DETAILED ACTION

1. This office action is in response to the amendments and remarks filed on 8/30/04.

Terminal Disclaimer

2. The terminal disclaimer filed on 8/30/04 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of any patent granted to application 10/693,552 or 10/063,974 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Claim Rejections - 35 USC § 102

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
4. Claims 1, 2, 4, 6-24 and 26 are rejected under 35 U.S.C. 102(e) as being anticipated by Yu et al (U.S. Patent 6,652,691).

The body of the rejection can be found in paragraph 4 of the office action mailed on 7/30/04.

Claim Rejections - 35 USC § 103

5. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
6. Claims 3, 5, 25, and 27-29 are rejected under 35 U.S.C. 103(a) as being obvious over Yu et al (U.S. Patent 6,652,691).

The body of the rejection can be found in paragraph 5 of the office action mailed on 7/30/04.

Response to Arguments

7. Applicant's arguments filed 8/30/04 have been fully considered but they are not persuasive.

Applicant amended claims 1, 9, and 16 to positively claim a treatment strip. The treatment strip is part of the material worked upon because it becomes part of the flexible seamed belt and is not considered part of the apparatus. The patentability of an apparatus claim can not be based on the material worked upon (See MPEP 2115). The claimed treatment strip is not considered part of the apparatus because it fails to further limit the structure of the apparatus. The apparatus of the present application and Yu (U.S. Patent 6,652,691) are capable of seaming the ends of a belt regardless of whether or not there is also a treatment strip. The presence of a treatment strip does not alter the structure or function of the apparatus. Accordingly the positively claimed treatment strip is not considered a limitation of the apparatus.

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1733

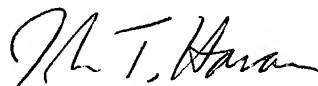

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
